NOVEMBER SUPPLEMENT - **NEW EMPLOYEE - GREATER CAPACITY!**

New employee - greater capacity!

In our continued pursuit of an increase in both experience and capacity within CSI, our company have employed John Gillett - a former Davicon Director and owner of D.B. Engineering, in order to enhance the service provided by CSI to the Trade.

John has over 25 years experience within the mezzanine industry and he brings a wealth of knowledge and ability to the role of Mezzanine Contracts Manager.

It is our firm belief that CSI now has as good a team as anybody in the mezzanine design and manufacturing sphere - we aim to continue to prove this by providing a first rate service to Trade customers across the length and breadth of the country!

Following on from our most recent Newsletter, we also want to reiterate our ability to handle the larger jobs - should you be in a position to send us the £250K plus enquiries, please do so - we now have the right people (along with our own in house manufacturing facilities) to allow us to provide a most competitive service!

Best of luck and kindest regards,

Graham Ward
Managing Director
